PRODUCT OVERVIEW

Hands-free foot grip door pull provides an alternative to open doors without having to use hands. Users with strong leg muscles can step on grip to pull door open and then side step to continue pushing door open from side. Grip is surface mounted with self-threading flat head screws (by others) through holes provided, at base of door aligned with bottom edge or slightly above, and as close to opening side as possible. Constructed of 11 gauge type 304 stainless steel with satin finish and fully deburred edges for user safety. Can be installed retroactively to door installation.

KEY FEATURES & SPECIFICATIONS

- An alternative to open doors without having to touch the handle surface with your bare hands.
- Step on the foot grip and pull the door open using leg strength
- Type 304 Stainless Steel - Satin Finish
- Heavy Duty 11 gauge thickness
- Surface Mounted
- Easy to retroactively mount to existing doors.
- Fits a variety of interior doors including bathroom doors

OPERATION & MAINTENANCE

Hands-free arm grip door pull provides alternative to open doors without having to use hands.
